Taylor Trade Publishing, United States, 2014. Hardback. Book Condition: New. 231 x 157 mm. Language: English . Brand New Book. Kwan Wilson was a high school basketball star living in San Diego when a tragic accident changed his life in ways no one could predict. He only looked at his phone for a few seconds, but that was all the time it took to crash his car into a telephone pole, the impact killing his mother while severing his spinal cord and paralyzing him from the waist down. After the accident his father, Admiral Douglas Wilson, sends him away to live with his maternal grandmother in South Florida. Kwan s new principal, anticipating his depression and isolation, tells him about an internship working at a genetics lab in Miami that s testing shark stem cells on rats in an effort to cure cancer and repair spinal injuries. Kwan declines-until he learns the beautiful Anya Patel is an intern at the lab. The good news is that the stem cells are curing their rat subjects; the bad news is it alters their DNA so much it kills them. When a promising breakthrough is made, Kwan risks his life and injects himself with the experimental stem cells-altering his destiny and the lives of millions in the process.
